DIBt is the German authority enforcing the industry's toughest legislation for emissions, ensuring good indoor air quality. All STP products, submitted up to date have been approved by DIBt. At STP we focus on finding new solutions that improve indoor air quality and the working conditions for the craftsman. Once again, we are reassured that we are on the right track for sustainability.

KEEP YOUR WOODEN FLOOR LOOKING ATTRACTIVE

Regular cleaning is the key to keeping your wooden floor looking attractive for years to come. Cleaning wooden floors used to be a chore. The traditional way is to use a mop and a bucket with a general household cleaner mixed with water. Not any more! With new Bona Wood Floor Cleaner, you just spray the floor and wipe it clean.

Because wood is different from other flooring materials, it requires special cleaning and maintenance products to retain its beauty. STP has the complete answers: the STP floor care range, based on Bona's 80 years' experience of taking care of wooden floors. Professional flooring contractors, cleaning companies and architects rely on our products because they are made especially for wooden floors.

SIMPLE TIPS TO AVOID DAMAGE

- Don't clean wooden floors with a wet mop. Too much water can cause the floor to swell, warp or turn grey.
- Don't use wax, soap or other household cleaners on wooden floors coated with finish. They can dull the floor's finish.
- Don't let sand, dirt or grit build up. They can act like sandpaper: abrading and dulling your floor finish.
- Vacuum or sweep your floors regularly. Once every week is recommended.
- Remove spills promptly.
- Place mats at exterior doors to trap sand and grit. Use rugs in high traffic pathways, at the ends of stairs and near doorways. Avoid rubber backing or non-ventilated rugs.
- Use protective pads or caps on furniture.
- Trim your pet's claw. Proper claw trimming helps avoid scratches and gouges
